CHAPTER 1 GENERAL

AIMS

- 1. The aim of the Cadet Program (CP) is to develop in youth the attributes of good citizenship and leadership, promote physical fitness and stimulate the interest of youth in the sea, land and air activities of the Canadian Forces (CF).
- 2. The aim of the Silver Star Program is to provide an Army Cadet with the basic theoretical knowledge and practical experience required to participate in corps activities as a team leader.

PROGRAM MISSION AND PARTICIPANT OUTCOMES

- 3. The mission of the CP is to contribute to the development and preparation of youth for the transition from adolescence to adulthood, enabling cadets to meet the challenges of modern society, through a dynamic, community-based program.
- 4. CP participant outcomes are the benefits for the cadet during and/or after their involvement with the program that relate to knowledge, skills, attitudes, values, behaviour, condition and status. The five outcomes of the CP are:
 - a. emotional and physical well-being,
 - b. social competence,
 - c. cognitive competence,
 - d. proactive citizenship, and
 - e. understanding the CF.
- 5. The program mission and participant outcomes are explained in greater detail in CATO 11-03, *Cadet Program Mandate*.

OUTLINE OF TRAINING

- 6. The Star Level Program is a directed program carried out at the corps focused on giving all cadets instruction and opportunities to develop knowledge and skills in a variety of subject areas while introducing them to specialized activities. This program is divided into five levels of training. Normally a cadet will only attempt one level in a given training year.
- 7. Each star level is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PROGRAM DESIGN

- 8. The Silver Star Program has been designed:
 - a. assuming that the majority of cadets are between 14 and 15 years of age;
 - b. assuming that the majority of cadets have successfully completed Red Star;
 - c. using age-appropriate learning strategies;
 - d. using 30 minutes as a standard period of instruction;

- e. by providing a programming mix consisting of fixed mandatory and flexible complementary training;
- f. including training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
- g. assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching/mentoring opportunities.

PERFORMANCE OBJECTIVES

- 9. The following are summaries of the POs common to all elements of the CP (allocated POs numbered 301 to 319) and the POs specific to the Silver Star Program:

 - (1) The aim of Silver Star wilderness survival is to provide the cadet with the knowledge and skills to use a survival kit to survive in the wilderness when immediate rescue is not assured.
 - (2) Silver Star wilderness survival indirectly supports army cadet expeditions through the development of skills to allow the cadet to survive in the wilderness during an emergency, while aiding search and rescue personnel to locate their position. Army cadet expedition training develops leadership skills, while enhancing individual self-concepts, such as self-confidence, self-reliance, self-esteem, and self-discipline. This is done through the use of expedition activities, as defined in CATO 40-01, Army Cadet Program Outline. Army cadet expeditions contribute directly to the achievement of the program aim of developing in youth the attributes of good citizenship and leadership. They also contribute to the promotion of physical fitness, and the participant outcomes of emotional and physical well-being, social competence, cognitive competence, and proactive citizenship.

- o. **Outdoor Leadership.** PO 325 Identify the Competencies of an Outdoor Leader (Chapter 4, Section 17):
 - (1) The aim of Silver Star outdoor leadership is to provide the cadet with foundation knowledge of the technical leadership competencies specific to outdoor leadership.
 - (2) Silver Star outdoor leadership supports army cadet expeditions through the development of knowledge and skills in outdoor leadership specifically to support the conducting of expeditions. Army cadet expedition training develops leadership skills, while enhancing individual self-concepts, such as self-confidence, self-reliance, self-esteem, and self-discipline. This is done through the use of expedition activities, as defined in CATO 40-01, Army Cadet Program Outline. Army cadet expeditions contribute directly to the achievement of the program aim of developing in youth the attributes of good citizenship and leadership. They also contribute to the promotion of physical fitness and developing the attribute of leadership, and the participant outcomes of emotional and physical well-being, social competence, cognitive competence, and proactive citizenship.
- p. **Expedition.** PO 326 Perform Expedition Skills (Chapter 4, Section 18):
 - (1) The aim of Silver Star expedition is to draw together material from the topic areas of Field Training, Navigation, and Trekking with dynamic transportation (two of: Class 3 trekking, canoeing or mountain biking) during a weekend expedition.
 - (2) Army cadet expedition training develops leadership skills, while enhancing individual self-concepts, such as self-confidence, self-reliance, self-esteem, and self-discipline. This is done through the use of expedition activities, as defined in CATO 40-01, Army Cadet Program Outline. Army cadet expeditions contribute directly to the achievement of the program aim of developing in youth the attributes of good citizenship and leadership. They also contribute to the promotion of physical fitness, and the participant outcomes of emotional and physical well-being, social competence, cognitive competence, and proactive citizenship.

METHOD OF ACHIEVING OBJECTIVES

- 10. The majority of Silver Star POs are skill-related. Skills are acquired through practical periods of instruction and practice. In order to achieve the POs, a hands-on learning approach is essential. The following guidance may assist in the implementation of the Silver Star Program:
 - a. Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
 - b. Ensure training sessions are well organized and planned in advance to allow instructors adequate time to prepare for the delivery/conduct of training. This includes reviewing lesson specifications and instructional guides and creating instructional materials as required.
 - c. Schedule training such that the material is presented in a manner that ensures a smooth flow from one activity to the next.
 - d. Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.

TRAINING PREREQUISITES

11. To participate in the Silver Star Program, youths must be members of a corps, as specified in A-CR-CCP-950/PT-001, *Queen's Regulations and Orders for the Canadian Cadet Organization*, Article 4.01.

USE OF THE QSP

- 12. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet as Silver Star. This QSP shall also be used by the D Cdts & JCR as the primary reference for validation of Silver Star qualification training.
- 13. The Silver Star Program shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-703/PF-001, *Royal Canadian Army Cadets Silver Star Instructional Guides*.

CHAPTER 2

TRAINING MANAGEMENTS DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

- 1. The Managing Authority for the Army Cadet Star Level Program is the D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:
 - a. Royal Canadian Army Cadet Corps (RCACC); and
 - b. Technical TEs, such as:
 - (1) expedition centres; and
 - (2) other zone, detachment or regional TEs as authorized by the RCSU Commanding Officer (CO).

TRAINING DETAILS

- 2. In accordance with CATOs 11-04, *Cadet Program Outline*, and 40-01, *Army Cadet Program Outline*, the Star Level Program is conducted between 1 September and 30 June of each training year through a combination of training sessions and supported training days/weekends. The Star Level Program is divided into two compulsory components that must be completed by all cadets. These components are:
 - a. **Mandatory Training.** Mandatory training is a scheme of activities that is requisite for corps, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program; and
 - b. Complementary Training. Complementary training is a scheme of activities that is requisite for corps, and in some instances specialized TEs, to conduct and for cadets to accomplish in order to complete the Star Level Program. These activities complement mandatory activities and form an integral part of the Star Level Program. COs have the discretion to choose activities from a range of possibilities, thus allowing them flexibility to tailor the Star Level Program to match the corps' interests and resources.
- 3. **Silver Star Training Outline.** The distribution of mandatory and complementary training in Silver Star is as follows:
 - a. Mandatory Training:
 - (1) Sixty periods of instruction to be conducted during twenty training sessions (three periods per session);
 - (2) Eighteen periods of instruction to be conducted during two mandatory training days (nine periods per day) for a total of two days;
 - (3) Eighteen periods of instruction to be conducted during a weekend bivouac Field Training Exercise (FTX); and
 - (4) Eighteen periods of instruction to be conducted during a weekend expedition exercise at a regional expedition centre.
 - b. Complementary Training:
 - (1) Thirty periods of instruction to be conducted during ten training sessions (three periods per session);

- (2) Eighteen periods of instruction to be conducted during two complementary training days (nine periods per day) for a total of two days; and
- (3) One weekend army cadet adventure training activities FTX (C123.01, A-CR-CCP-951/PT-002, Royal Canadian Army Cadet Adventure Training Safety Standards) or cold weather FTX (C121.05, A-CR-CCP-107/PT-002, Royal Canadian Army Cadet Course Training Plan, Corps Training Program, Winter Adventure Training Manual).
- 4. **Period Allocation.** Periods are 30 minutes in duration with some periods allocated to be instructed in a field environment during supported weekends. A detailed period allocation is located at Annex A. Total period allocation by PO is as follows:

6. **Training Staff Requirements**

a. Corps Training Officer (Trg O):

Rank	MOSID	Number	Qualification

7. **Technical Specialists.** Technical specialists possess specific specialty qualifications. The number of technical specialists required is influenced by policy documentation specific to the activity (eg, CATOs, Water Safety Orders, etc.) and by local circumstances, which will also influence the structure for instructional or training support cadre(s). The technical specialists required in support of the Silver Star Program are:

- a. Specialist Instructors:
 - (1) Range Safety Officer (Air Rifle)(RSO-AR) in support of PO 306 (Chapter 4, Section 7) and PO 311 (Chapter 4, Section 11) Biathlon;
 - (2) Cold Weather Instructor in support of EO C121.05 (A-CR-CCP-107/PT-002) and EO C123.03 (A-CR-CCP-701/PG-001, Chapter 4, Section 12); and

- Guest speaker(s) as required.
- 8. **Resource Requirements.** RCSU COs are responsible for ensuring that required equipment and supplies are available. A detailed list of material, audiovisual equipment and training/learning aids required to conduct the training is located at Annex C.

TRAINING ADMINISTRATION

- 9. **Cadet Evaluation.** Details on cadet evaluation are found in Chapter 3.
- 10. **Reports.** The Trg O should maintain a training file on each cadet to record their progress during the training year. The training file should consist, as a minimum, of a Silver Star Program Qualification Record (Chapter 3, Annex C). Training files are temporary documents, which may be disposed of upon migration of the Silver Star Program Qualification Record to the DND 2399, *Cadet Personnel Record*.

QUALIFICATION

11. The Silver Star qualification is awarded to cadets upon completion of the requirements specified in Chapter 3.

RELATED DOCUMENTS

- 12. This QSP is to be used in conjunction with:
 - a. CATOs; and
 - b. A-CR-CCP-703/PF-001.

SPECIAL INSTRUCTIONS

- 13. **Scheduling**. When planning training, Trg Os are to be familiar with the lesson specifications found in Chapter 4. While a sample schedule is located at Annex B, it does not account for the many variables corps face when developing annual training plans. Some things to consider when developing the annual training schedule are:
 - a. the training environment required for each activity:
 - (1) some activities will require an outdoor environment which requires consideration for seasonal climate; and
 - (2) some activities will require the use of a special facility, such as a gymnasium or sports field;
 - b. the availability of a technical specialist, if required to conduct the activity;
 - c. the logical grouping and sequencing of EOs to take advantage of interrelationships that exist within the instructional material; and
 - d. the scheduling of training during sessions relative to weekend training, eg, identifying EOs that must be delivered just prior to a training day or weekend to prepare the cadets for the event.

14. Training Days/Weekends:

- a. The planning and conduct of training days is the responsibility of the corps. Day training shall be conducted at the corps parade location or, where suitable facilities do not exist at the corps parade location, within the local community.
- b. The conduct of the expedition training weekend is the responsibility of expedition centres. The planning of these activities is to be done in conjunction with the Area Cadet Detachment/RCSU and the applicable Technical TE.
- c. In accordance with CATO 11-04, *Cadet Program Outline*, weekend training shall normally be conducted within three hundred kilometres of the corps' parade location.
- d. Where support of mandatory or complementary days/weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 40-01, *Army Cadet Program Outline*, and regional orders for amplified information on support available from RCSUs.
- e. Training days and weekends shall be structured, unless otherwise specified in the individual Star Level QSP, to include cadets from all levels of the Star Program.

CA – Confirmation Activity

Notes: 1.

- 1. M326.02 (Chapter 4, Section 18) to M326.07 (Chapter 4, Section 18) and 326 PC (Chapter 3, Annex B, Appendix 7) are to be conducted at an expedition centre during the allocated expedition exercise. Therefore, while the period count for these EOs is an estimate that conforms to the standard eighteen periods allocated to a training weekend. Each expedition centre may adjust this allocation to reflect the choice of activities, facilities and available resources at the expedition centre.
- 2. Two activities shall be selected from the three listed as M326.02 (Chapter 4, Section 18).

TRAINING DAY/WEEKEND ALLOCATION

MANDATORY

Activity	Description	Time
Mandatory Training Periods	Eighteen periods of instruction (nine per day) chosen from the mandatory EOs, to be delivered during a full day of training. In some cases periods have been grouped into logical nine period days in the lesson specifications (eg, PO 302 [Community Service, Chapter 4, Section 3], PO 305 [Recreational Sports, Chapter 4, Section 6], or PO 306 [Air Rifle Marksmanship, Chapter 4, Section 7]). However, corps may choose to deliver any EOs that suit their circumstances on these days.	2 Days
Bivouac FTX	One weekend of mandatory support will be provided for corps to participate in a Weekend Bivouac FTX to include two days of practical experience in support of PO 321 (Field Training, Chapter 4, Section 13), PO 322 (Navigation, Chapter 4, Section 14) and PO 324 (Wilderness Survival, Chapter 4, Section 16).	1 Weekend

COMPLEMENTARY

Activity	Description	Time
Complementary Training Periods	Eighteen periods of instruction (nine per day) chosen from the complementary EOs, to be delivered during a full day of training. In some cases periods have been grouped into logical nine period days in the lesson specifications (eg, PO 302 [Community Service, Chapter 4, Section 3], PO 305 [Recreational Sports, Chapter 4, Section 6], or PO 323 [Trekking, Chapter 4, Section 15]). However, corps may choose to deliver any complementary EOs, that meet their specific circumstances, on these days.	2 Days
Army Cadet Adventure Training Activities FTX	One weekend of complementary support will be provided for corps to participate in either: a. a weekend adventure training FTX (EO C123.01 Participate in Adventure Training) conducted in accordance with A-CR-CCP-951/PT-002; or b. a weekend cold weather FTX (EO C121.05 Participate in Cold Weather Training) conducted in accordance with A-CR-CCP-107/PT-002.	1 Weekend
	Total Complementary	4 Days

Note: Supported training days and weekends, unless otherwise specified in this QSP, are to be planned and conducted to include participation by all star levels.

CONDUCT OF EXPEDITION EXERCISE

- 1. This annex is intended as amplification to Chapter 4 to provide guidance as to the conduct of PO 326 (Perform Expedition Skills, Chapter 4, Section 18).
- 2. Expedition centre training has been designed to provide the Silver Star cadet with the opportunity to develop expedition skills in a structured environment under the supervision and instruction of highly qualified staff. The expedition centre will approach training through an experiential approach, which will allow the cadet to develop skills such as mountain biking and hiking through direct experience at a personal level. Each cadet will be given the opportunity to examine what they saw, felt and thought during the weekend, and consider how it related to what they already learned as well as how it will relate to future experiences.
- 3. Corps will be required to provide each cadet attending an expedition centre with a briefing concerning their participation in the activities at the centre. The information required to be presented is included in EO M326.01 (Prepare for Expedition Training, Chapter 4, Section 18) and the specific expedition centre joining instructions. Corps training officers are advised to schedule this EO two weeks prior to the cadet attending the expedition centre, to provide the cadets with enough time to fully prepare for their participation in the activities.
- 4. The following EOs will be completed at the expedition centre:
 - a. EO M326.03 (Practice Environmental Stewardship as a Team Leader, Chapter 4, Section 18) 1 period,
 - EO M326.04 (Navigate Along a Route Using a Map and Compass, Chapter 4, Section 18)
 2 periods,
 - c. EO M326.05 (Use Expedition Equipment, Chapter 4, Section 18) 2 periods,
 - d. EO M326.06 (Follow Daily Routine, Chapter 4, Section 18) 1 period, and
 - e. EO M326.07 (Record Entries in a Journal, Chapter 4, Section 18) 1 period.
- 5. Expedition centres, under direction from regional trainers, will select and train at least two of the following dynamic modes of travel:
 - a. EO M326.02a (Paddle a Canoe, Chapter 4, Section 18) 5.5 periods,
 - b. EO M326.02b (Ride a Mountain Bike, Chapter 4, Section 18) 5.5 periods, or
 - c. EO M326.02c (Hike Along a Route, Chapter 4, Section 18) 5.5 periods.
- 6. The following are the training expectations for each dynamic mode of travel:
 - a. Canoeing. The cadet shall paddle a tandem canoe on flatwater for a distance of up to 10 km.
 - b. **Mountain Biking.** The cadet shall ride a mountain bike on familiarization mountain bike trails for a distance not to exceed 40 km.
 - c. **Hiking.** The cadet shall hike along a route consisting of a combination of Class 1, 2 and 3 terrain for a distance not to exceed 10 km. At least 1/3 of the route must be Class 3 terrain.
- 7. A schedule has been included to provide the expedition centre with a sample format to follow for the weekend. The period count for all required EOs is an estimate that conforms to the standard eighteen periods allocated to a training weekend. The expedition centre may choose to adjust this allocation to reflect the choice of activities, facilities and available resources. When developing a training schedule expedition centres may choose to incorporate additional Army Cadet Adventure Training Activities, (ACATA) as outlined in A-CR-CCP-951/PT-002, as long as this does not impede the cadets' ability to meet mandatory training requirements.

- 8. All training will be conducted based on a small group model. Based on fortress data the cadet will be placed into teams of no more than nine cadets upon arrival Friday evening. An expedition centre Team Instructor (TI) will be assigned to each team and will remain with the team for the duration of the weekend. These team sizes take into account the instructor / cadet training ratios, but not the requisite instructor qualifications, for the adventure training activities being conducted.
- 9. When following an experiential education approach, being aware of teachable moments is very important. A teachable moment is a situation that naturally arises during the course of the day and provides opportunity for discussion. These moments will reinforce both expedition and corps program material and should be taken advantage of throughout the expedition. Expedition centre staff should take the time to explain and emphasize program material as opportunity arises. Some of these teachable moments could include:
 - a. navigation,
 - b. leave no trace,
 - c. foot care,
 - d. basic astronomy,
 - e. wildlife,
 - f. predicting weather,
 - g. campsite routine, and
 - h. use of equipment, etc.

CHAPTER 3 CADET EVALUATION

PURPOSE

1. The purpose of this chapter is to outline the specific evaluation requirements for achievement of Silver Star qualification.

LEARNER EVALUATION

- 2. A-P9-050-000/PT-Z01, *Manual of Individual Training and Education, Volume 1* defines learner evaluation as, "the assessment of progress made by participants during an instructional programme (formative evaluation) and of their achievement at the end of the programme (summative evaluation)."
- 3. Formative evaluation, or assessment **for** learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. Through formative evaluation, the instructor can: identify when corrective or remedial action is required, plan the next steps in instruction, provide cadets with feedback so they can improve, and reinforce learning to aid the cadet in retaining information. Formative evaluation may also include opportunities for cadets to practice using performance checks (PCs) employed in summative evaluation. Details for assessment for learning are outlined within the applicable lesson specifications found in Chapter 4.
- 4. Summative evaluation, or assessment **of** learning, takes place to determine whether learners have achieved POs, or critical EOs (those deemed prerequisites to further individual training and education) and are used at the end of a phase of instruction. Details for assessment of learning are detailed within this chapter.

CADET EVALUATION DESIGN AND DEVELOPMENT

- 5. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).
- 6. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.
- 7. The following fundamental assessment principles shall guide the conduct of Silver Star assessment activities:
 - a. In advance of training, the instructor shall inform the cadet of POs and EOs associated with the qualification.
 - b. In advance of training, the instructor shall inform the cadet of the assessment plan for the qualification and provide the cadet with an opportunity to review the applicable forms used in assessment.
 - c. Assessment information shall be shared between the instructor and the cadet and used to revise and guide instruction and learning.
 - d. The instructor shall provide feedback that is descriptive, constructive, frequent, and timely; helping the cadet to identify strengths and address areas requiring improvement.
 - e. The cadet shall be actively, consistently and effectively involved in assessment; including learning to manage their own learning through the skills of self-assessment.

f. The cadet shall be encouraged to actively, consistently and effectively communicate with others about their learning progress.

CP DEVELOPMENTAL PERIODS (DPs)

- 8. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.
- 9. A DP is a time frame, during a cadet's progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aim of the CP and contribute to the achievement of the CP outcomes.
- 10. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.
- 11. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Annex A.

CADET ASSESSMENT OF LEARNING PLAN

- 12. The assessment of learning plan located at Annex B, provides an overall strategy for using assessment activities to determine if the cadet meets the requirements for Silver Star qualification. The assessment of learning plan will:
 - a. provide an outline of each assessment of learning activity including its purpose, when it will occur, and details the assessment instrument(s) used to support cadet evaluation;
 - b. identify the learning target(s) associated with the PO and/or EO being assessed, to include:
 - (1) **Knowledge Mastery.** The facts, concepts and theory a cadet needs to know.
 - (2) **Reasoning Proficiency.** A cadet uses what they know to solve a problem, make a decision, make a plan, think critically, set goals, or self-assess.
 - (3) **Skills.** Performance demonstration; where the cadet demonstrates their ability to perform a skill. To be assessed, these performances must be demonstrated by the cadet and observed by an assessor.
 - (4) **Ability to Create Products.** A cadet uses their knowledge, reasoning and skills to create a concrete product.
 - (5) **Attitudinal/Dispositional Changes.** A cadet's attitude about learning, safety, conduct, etc. Targets in this realm reflect attitude and feeling. They represent important affective goals we hold for a cadet as a by-product of their CP experience, and as such are not generally assessed for the purpose of attaining a qualification.
 - c. identify the assessment method(s) that best matches PO and/or EO learning targets, to include:
 - (1) Selected Response. A cadet selects the correct or best response from a list provided. Formats include multiple choice, true/false, matching, short answer, and fill-in-the-blank questions. Although short answer and fill-in-the-blank questions do require cadets to generate an answer, they call for a very brief answer that is counted as right or wrong, so these have been included in the selected response category.

- (2) **Extended Written Response.** A cadet is required to construct a written answer in response to a question or task rather than select one from a list. An extended written response is one that is at least several sentences in length.
- (3) **Performance Assessment.** This assessment method is based on observation and judgment; performance or product is observed and a determination is made as to its quality.
- (4) **Personal Communication.** Gathering information about a cadet through personal communication, learning is assessed through interpersonal interaction with the cadet.

ASSESSMENT INSTRUMENTS

13. Specific assessment instruments have been designed to support each assessment activity within the assessment of learning plan. These are meant to standardize assessment activities and cadet evaluation for all cadets attempting the qualification. Assessment instruments are located at Annex B, Appendixes 1 to 7.

ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES

14. No additional cadet evaluations, eg, theory tests or performance checks, are to be used to determine Silver Star qualification eligibility. Therefore, these national standards are not to be supplemented with additional regional and/or local standards.

SILVER STAR QUALIFICATION STANDARD

- 15. The minimum standard for Silver Star qualification is:
 - a. 60 percent overall attendance in all scheduled mandatory and complementary training as calculated by the corps; and
 - b. successful completion of each PO as outlined in the Silver Star Program Qualification Record located at Annex C.

RECOGNITION OF ENHANCED PROFICIENCY ACHIEVEMENT

- 16. Certain POs within the Assessment of Learning Plan allow for recognition of an enhanced proficiency level of achievement. The assessment instructions for the applicable PCs outline how proficiency levels are achieved and recorded on the Qualification Record. This information highlights a cadet's strength(s) within the achievement of the qualification. The following definitions differentiate baseline proficiency and enhanced proficiency levels of achievement:
 - a. **Baseline Proficiency.** A cadet achieves baseline proficiency by demonstrating the performance standard outlined in the applicable PO; and
 - b. **Enhanced Proficiency.** A cadet achieves enhanced proficiency by exceeding the performance standard outlined in the applicable PO.

CADETS NOT MEETING THE QUALIFICATION STANDARD

- 17. A cadet who does not meet the qualification standard for any PO shall be given a reasonable opportunity to achieve the standard. Unless otherwise specified in the assessment of learning plan and associated assessment instruments, there is no limit to the number of additional opportunities that may be afforded to the cadet, provided it is within the resources of the corps. If, by the end of the training year, a cadet who is Red Star qualified has not successfully attained any PO, the corps CO may waive the minimum qualification standard. When waiving any PO requirement, the corps CO shall consider:
 - a. the legitimacy of the cadet's reason for failing to attain the PO;

- b. the cadet's mandatory and complementary training attendance; and
- c. the cadet's overall behaviour and performance.
- 18. Any cadet for whom a waiver has been issued will not be granted the Silver Star qualification. However, that cadet will progress to Gold Star in the fourth year of their corps membership. If a CO does not grant a cadet a waiver, that cadet may be held back to repeat Silver Star.
- 19. Cadets who have been granted a waiver of the qualification standard of Silver Star and have progressed to Gold Star in the fourth year of their corps membership are expected to achieve the missing Silver Star PO requirements. To facilitate this, cadets may concurrently receive credit for activities completed in Gold Star as part of also achieving Silver Star.
- 20. Notwithstanding the general direction in Paragraphs 18 to 20, the following limitations shall be adhered to:
 - a. only cadets who have achieved the Red Star qualification may be granted a waiver; and
 - b. given the resource and scheduling implications of cadets attending expedition centres in Gold Star without the prerequisite skills training provided in Silver Star, cadets may only be waived PO 326 (Perform Expedition Skills, Chapter 4, Section 18) by a designated representative of the RCSU. The corps CO shall make a request to the designated representative of the RCSU through the chain of command. When considering a cadet for waiver of PO 326 (Chapter 4, Section 18), RCSU staff shall consider previously acquired equivalency training, including that received as part of the CSTC Program and that attained outside the CP. Where a cadet lacks suitable equivalency training the RCSU may waive the PO while requiring that the cadet complete PO 326 (Chapter 4, Section 18) in their Gold Star year, prior to being eligible to participate in PO 426 (A-CR-CCP-704/PG-001, Chapter 4, Section 18).

RECORDING AND REPORTING CADET ACHIEVEMENT

21. The progress of each cadet shall be recorded on the Silver Star Program Qualification Record, located at Annex C, which is also used to determine successful completion of Silver Star qualification. Commanding Officers are responsible for ensuring the results are recorded on each cadet's DND 2399, *Cadet Personnel Record*.

SILVER STAR CERTIFICATE OF QUALIFICATION

22. The CF 558, *Cadet Certificate of Qualification* (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of the Silver Star qualification.

MONITORING CADET PROGRESS

- 23. Cadets must meet the standard of behaviour and conduct expected from all cadets. The course officer during cadet interviews and personal counselling should adopt a proactive approach towards difficulties.
- 24. The course officer is encouraged to meet formally and informally with cadets throughout the training year to discuss the cadet's progress towards Silver Star qualification (assessment for learning) and to provide feedback on overall performance. At a minimum, it is expected that the course officer will meet with each cadet at the end of the training year to review the completed Silver Star Program Qualification Record, Annex C. Guidelines for conducting cadet interviews are located at Annex D.
- 25. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard for Silver Star qualification must be addressed in accordance with CATO 15-22, *Conduct and Discipline Cadets*.

TRAINING COUNSELLING SESSION

26. A training counselling session is used when a cadet is having difficulties progressing toward Silver Star qualification and an intervention is required to set goals for corrective action and/or remedial instruction. These counselling sessions focus on training related issues. The Trg O is responsible for conducting training counselling sessions. Guidelines for conducting training counselling sessions are located in Annex E and the Training Counselling Session Form is located at Annex E, Appendix 1.

303 PC - ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and 303 PC Assessment Rubric and become familiar with the material prior to conducting the assessment.

There is no time allotted for 303 PC. It is to be administered whenever and wherever Silver Star cadets lead cadets through a leadership assignment.

The cadet shall be given a minimum of one practice leadership assignment which will be assessed using the 303 PC Assessment Rubric. The cadet will reflect and self-assess after the practice leadership assignment using the same rubric. The practice leadership assignment will not be recorded on the cadet's qualification record.

The formal leadership assignment will be given and assessed using the 303 PC Assessment Rubric. The cadet will reflect and self-assess after the leadership assignment using the same rubric. The leadership assignment shall be recorded on the cadet's qualification record.

If the cadet does not achieve the performance standard, the cadet will be given additional leadership assignments until the performance standard is met.

Photocopy the 303 PC Assessment Rubric twice for each leadership assignment given.

PRE-ASSESSMENT ASSIGNMENT

The cadet shall review the 303 PC Assessment Rubric and become familiar with the assessment criteria prior to the leadership assignment.

ASSESSMENT METHOD

Performance assessment and personal communication were chosen as it allows the assessor to observe the cadet's ability to perform the required skill(s) and make a judgement on the quality of performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to lead cadets through a leadership assignment.

RESOURCES

- Two 303 PC Assessment Rubrics, and
- As per the leadership assignment.

ASSESSMENT ACTIVITY LAYOUT

As per the leadership assignment.

ASSESSMENT ACTIVITY INSTRUCTIONS

While observing the cadet leading cadets through a leadership assignment, assess the quality of each criterion by indicating (eg, highlighting, circling, note taking) on the Assessment Rubric, the descriptive statement that best represents this judgement. Criteria for the leading through a leadership assignment are assessed as:

- Incomplete;
- Completed With Difficulty;
- Completed Without Difficulty; or
- Exceeded Standard.

Make notes of observations to provide descriptive post-assessment feedback.

- 1. Communicate to the cadet their leadership assignment either verbally or in writing.
- 2. Ensure the cadet understands the leadership assignment.
- 3. Distribute the Assessment Rubric to the cadet for self-assessment purposes.
- 4. Ensure the cadet understands their self-assessment will not be recorded on their qualification record.
- 5. Have the cadet conduct the leadership assignment.
- 6. Evaluate the cadet's leadership ability by observation. Record the result (eg, highlighting, circling, note taking) on the Assessment Rubric for each criterion.

The assessment of leadership abilities is subjective; however, the assessor's responsibility is to be as positive as possible.

7. Have the cadet assess their performance on their Assessment Rubric.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete.** Overall, the cadet has not achieved the performance standard.
 - b. **Completed With Difficulty.** Overall, the cadet has achieved the performance standard with difficulty.
 - c. **Completed Without Difficulty.** Overall, the cadet has achieved the performance standard without difficulty.
 - d. **Exceeded Standard.** Overall, the cadet has exceeded the performance standard.
- 2. Record notes and observations in the assessor's feedback section of the Assessment Checklist.
- 3. Sign and date the Assessment Checklist.

- 4. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
- 5. The overall result will be recorded on the Silver Star Qualification Record located at Annex C.

PROVIDING ASSESSMENT FEEDBACK

Discuss the cadet's self-assessment on their performance.

Ask the cadet what they felt went right during the leadership assessment, what did not go well and ask the cadet how they would improve their performance if the leadership assignment was given to them again.

Discuss the performance results of each section of the Assessment Rubric with the cadet.

Discuss the overall performance results with the cadet and provide the cadet with a copy of the completed rubric.

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and 308 PC Assessment Checklist and become familiar with the material prior to conducting the assessment.

Photocopy the Assessment Checklist for each cadet.

Ensure each cadet has received an aide-mémoire card, listing the requisite drill sequence.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the Assessment Checklist and become familiar with the material prior to the assessment.

ASSESSMENT METHOD

Performance assessment was chosen to observe and evaluate the cadet directing a squad prior to a parade.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to direct a squad prior to a parade.

RESOURCES

PO 308 PC Assessment Checklist.

ASSESSMENT ACTIVITY LAYOUT

This assessment shall be conducted in a drill hall or outdoor parade square in favourable weather.

Assessments will be conducted throughout the year during opening and/or closing parades.

ASSESSMENT ACTIVITY INSTRUCTIONS

After observing each skill being performed, make a judgement and indicate on the Assessment Checklist whether the skill was:

- **Incomplete.** The skill was not attempted or not completed even with assistance.
- Completed With Difficulty. The skill was completed with some difficulty, assistance
 or use of the aide-mémoire card. The cadet directed the squad, but failed to correctly
 deliver the words of command or the cadet had a poor bearing while delivering the
 words of command.
- Completed Without Difficulty. The skill was completed without difficulty, assistance or use of the aide-mémoire card. The cadet maintained a good bearing and correctly and clearly delivered the words of command.

Make notes or observations for the purposes of providing post-assessment descriptive feedback.

- 1. Assess the cadet's performance for each skill and record the results on the Assessment Checklist.
- Cadets may be given unlimited re-tests within the resources of the cadet corps to meet the standard for each skill. Where time permits, cadets may re-test to improve their results to Completed Without Difficulty.

POST ASSESSMENT INSTRUCTIONS

Photocopy the 309 PC Checklist.

PRE-ASSESSMENT ASSIGNMENT

Each cadet is to plan a 15-minute lesson for instruction IAW EO M309.06 (Plan a Lesson, Chapter 4, Section 10). Each cadet is to prepare a written lesson plan and an appropriate instructional aid(s) to be used for the instruction of that lesson.

ASSESSMENT METHOD

Performance assessment was chosen as it allows the assessor to observe the cadets' performance in instructing and the product of their lesson plan and make a judgment on its quality.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this assessment is to assess the cadet's ability to instruct a lesson using a written lesson plan, an appropriate method(s) of instruction and an appropriate instructional aid(s).

RESOURCES

IAW the EO M309.06 (Plan a Lesson, Chapter 4, Section 10) and EO M309.07 (Instruct a 15-Minute Lesson, Chapter 4, Section 10).

ASSESSMENT ACTIVITY LAYOUT

Classroom or training area large enough to accommodate the entire group.

ASSESSMENT ACTIVITY INSTRUCTIONS

This PC is assessed during EO M309.07 (Instruct a 15-Minute Lesson, Chapter 4, Section 10).

The PC Assessment Checklist is to be used in conjunction with the *Instructional Techniques Assessment Form*, (A-CR-CCP-703/PF-001, Chapter 9, Section 7) used in the conduct of EO M309.07 (Instruct a 15-Minute Lesson, Chapter 4, Section 10).

Criteria for assessing the cadets' ability to instruct a lesson using a written lesson plan, an appropriate method(s) of instruction and an appropriate instructional aid(s) is assessed as:

- **Incomplete**. If the instruction of the lesson was not attempted, was not completed, if no lesson plan was submitted, or if no instructional aid was used.
- Completed With Difficulty. If the instruction of the lesson was completed but the cadet had difficulty writing/using the lesson plan, instructing the lesson using an appropriate method(s) of instruction or developing/using an appropriate instructional aid(s).
- Completed Without Difficulty. If the instruction of the lesson was completed and the cadet had no difficulty writing/using the lesson plan, instructing the lesson using an appropriate method(s) of instruction and developing/using an appropriate instructional aid(s).

Make notes of observations to provide descriptive post-assessment feedback.

Each cadet prior to the start of EO M309.07 (Instruct a 15-Minute Lesson, Chapter 4, Section 10), will be required to:

- plan a 15-minute lesson IAW EO M309.06 (Plan a Lesson, Chapter 4, Section 10);
- develop a written lesson plan; and
- develop an appropriate instructional aid(s).

Each cadet shall arrive prepared to instruct a lesson during EO M309.07 (Instruct a 15-Minute Lesson, Chapter 4, Section 10). During the time allotted for this lesson each cadet will:

- provide a copy of their written lesson plan to the assessor;
- prepare the classroom/training area for their lesson;
- instruct a 15-minute lesson using the following:
 - an appropriate method(s) of instruction; and
 - an appropriate instructional aid(s); and
- participate in a brief feedback session with the assessor upon completion of the lesson.

Each cadet will be required to complete this without assistance.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. As each cadet instructs a 15-minute lesson, indicate his or her performance assessment on the assessment checklist as:
 - a. **Incomplete**. If the instruction of the lesson was not attempted, was not completed, if no lesson plan was submitted, or if no instructional aid was used.
 - b. **Completed With Difficulty**. If the instruction of the lesson was completed but the cadet had difficulty writing/using the lesson plan, instructing the lesson using an appropriate method(s) of instruction or developing/using an appropriate instructional aid(s).

- c. **Completed Without Difficulty**. If the instruction of the lesson was completed and the cadet had no difficulty writing/using the lesson plan, instructing the lesson using an appropriate method(s) of instruction and developing/using an appropriate instructional aid(s).
- d. **Exceeded Standard**. If the instruction of the lesson was completed beyond the level expected of a Silver Star cadet. In addition to meeting the requirements of *Completed Without Difficulty*, the cadet consistently demonstrated other instructional techniques IAW the *Instructional Techniques Assessment Form*.
- 2. Record notes made in the assessor's feedback section of the assessment checklist.
- 3. Sign and date the assessment checklist.
- 4. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
- 5. The overall result will be recorded on the Silver Star Qualification Record located at Annex C.

PROVIDING ASSESSMENT FEEDBACK

This assessment is accomplished through direct/immediate feedback with the cadet upon completion of the period of instruction. The assessor should offer feedback and suggestions for improvement to the cadet based on the Instructional Techniques Assessment Form and 309 PC Assessment Checklist.

The grey areas of the Instructional Techniques Assessment Form are those applicable to the 309 PC (eg, the standard required for the achievement of PO 309). The remainder of the form is intended solely for the purposes of assessment for learning and providing the cadets with the feedback they need to improve their skills.

Discuss the overall performance results with the cadet and provide them with a copy of the completed checklist.

322 PC - ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and Assessment Checklist and become familiar with the material prior to conducting the assessment.

Prepare a navigational route of six legs IAW Pre-Lesson Instructions to instructional guide EO M322.06 (Identify Location Using a Global Positioning [GPS] Receiver, A-CR-CCP-703/PF-001, Chapter 13, Section 6).

Ensure Global Positioning System (GPS) receivers have fully-charged batteries.

Obtain all resources required for the assessment.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the assessment activity instructions and the Assessment Checklist to become familiar with the material prior to participating in the assessment.

ASSESSMENT METHOD

Performance assessment was chosen to observe the cadet's ability to perform the required skills and make a judgement on the quality of the performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this PC is to assess the cadet's ability to plot their position on a topographical map with a grid reference (GR) determined by a GPS receiver.

RESOURCES

- 322 PC Assessment Checklist,
- GPS receiver,
- Topographical map, and
- Pencil.

ASSESSMENT ACTIVITY LAYOUT

N/A.

ASSESSMENT ACTIVITY INSTRUCTIONS

After observing the performance of each skill, make a judgement and indicate on the Assessment Checklist whether the skill was:

- **Incomplete.** The skill was not attempted or the skill was not completed even with assistance.
- **Completed With Difficulty.** The skill was completed with difficulty and/or required assistance from the assessor.
- Completed Without Difficulty. The task was completed without difficulty and/or required minimal assistance from the instructor.
- **Exceeded Standard.** The task was completed with no difficulty and no assistance from the assessor.

Make notes of observations for the purpose of providing post-assessment descriptive feedback.

- 1. Observe the cadet during the conduct of the practical activity and use the checklist to assess their performance.
- 2. Configure the GPS. Set the datum to be different than the topographical map being used (WGS-84 or NAD-27 or NAD-83) and set the coordinate system to UTM rather than MGRS.
- 3. Divide the cadets into groups of no more than six.
- 4. Assign each cadet in the group one of the six checkpoints.
- 5. Have each cadet lead the group to their designated checkpoint navigating with a topographical map;
- 6. At the checkpoint have the cadet identify position using a GPS receiver, to include:
 - a. confirming the correct map datum is set on the GPS receiver;

The process the cadet should follow to confirm the correct map datum is set on the GPS receiver is as follows:

- 1. Identify the map datum of the topographical map being used as the reference.
- 2. With the GPS, go to the "set-up" menu, then "navigation", then "system" or "units".
- 3. Highlight the map datum's box.
- 4. Scroll through the list of datums and find the map datum being used.
- 5. Set the correct datum.
- b. locating the geographical position page on the GPS receiver and confirming:
 - (1) the grid zone is the same as printed on the topographical map;
 - (2) the 100 000 m square identifiers are the same;

The process the cadet should follow to confirm the grid zone, and the 100 000 m square identifiers are the same:

- 1. Read the co-ordinates off of the geographical position page and identify the grid zone designator and the 100 000 m square identifier.
- 2. Reference the topographical maps marginal information and locate the grid zone designator box.
- 3. Confirm the grid zone designator and 100 000 m matches the GPS displayed coordinates.
- c. reading the current 10-figure GR and extracting the 6-figure GR; and

The process the cadet should follow to read the current 10-figure GR from the GPS receiver and extract the 6-figure GR is as follows:

- Identify the 10-figure GR.
- 2. From the 10-figure GR, identify the easting portion (first five digits) and extract the first three numbers.
- 3. From the 10-figure GR, identify the northings (last five digits) and extract the first three digits.
- 4. The six digits extracted give the 6-figure GR.
- d. plotting the 6-figure GR on the topographical map of the area.
- 7. Have the cadet confirm the plotted 6-figure GR that corresponds with the assigned checkpoint.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete.** If the cadet has not achieved the standard by not completing at least one of the required skills.
 - b. **Completed With Difficulty.** If all the skills on the checklist were completed but less than 60 percent (3 or less out of 6) were completed without difficulty/assistance.
 - c. **Completed Without Difficulty.** If all the skills on the checklist were completed with 60 percent or more (4 or more out of 6) completed without difficulty/assistance.
 - d. **Exceeded Standard.** If all the skills on the checklist were completed without major difficulty/ assistance. This includes skills checked as "completed without difficulty" and "exceeded standard".
- 2. Record notes and observations in the assessor's feedback section of the Assessment Checklist.
- 3. Sign and date the Assessment Checklist.
- 4. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
- The overall result will be recorded on the Silver Star Qualification Record located at Annex C.

PROVIDING ASSESSMENT FEEDBACK

Feedback should be provided to the cadets upon conclusion of the PC assessment to inform them of their progress. This is accomplished through direct/immediate feedback immediately following the practical assessment, group debriefings at the end of the training day and one-on-one interviews as required.

Discuss the performance results of each section of the Assessment Checklist and the overall performance results with the cadet and provide them with a copy of the completed checklist.

324 EC 01/02/03/04 - ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and Assessment Rubric and become familiar with the material prior to conducting the assessment.

Obtain all resources required for the assessment.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the assessment activity instructions and the Assessment Rubric to become familiar with the material prior to participating in the assessment.

ASSESSMENT METHOD

Performance assessment was chosen to observe the cadet performing the required skills and make a judgement on the quality of the performance and product created.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of these ECs are to assess the cadet's ability to:

- build an improvised shelter in a survival situation;
- collect water in a survival situation;
- ignite a fire without the use of matches or a lighter in a survival situation; and
- predict weather by observing cloud formations and weather patterns.

RESOURCES

- PO 324 EC 01/02/03/04 Assessment Rubric,
- Survival kit,
- Groundsheet,
- Flint and steel,
- Glass,
- 1.8-kg (4-lb) axe with a 91-cm (36-inch) handle,
- 60-cm (24-inch) bow saw,
- Shovel,
- Pail filled with sand or water,
- Tinder,
- Kindling,
- Twine,

- Cup or pail, and
- Clear plastic bags.

ASSESSMENT ACTIVITY LAYOUT

The assessment will be conducted in the field during the Bivouac FTX in a controlled setting during daylight hours.

ASSESSMENT ACTIVITY INSTRUCTIONS

The assessment tool for 324 EC 01/02/03/04 is divided into two sections. A rubric will be used to assess the cadet's performance of: collecting water, predicting weather, constructing an improvised shelter and lighting a fire without matches.

The performance will be assessed as the following:

- **Incomplete**. The skill was not attempted or the skill was not completed even with assistance.
- Completed With Difficulty. The task was completed with some difficulty and/or required assistance from the assessor.
- Completed Without Difficulty. The task was completed without major difficulty and/ or required minimal assistance from the instructor.
- **Exceeded Standard.** The task was completed with no difficulty and no assistance from the assessor.

Make notes of observations for the purpose of providing post-assessment descriptive feedback.

To ensure a safe environment, cadets shall be afforded only two safety-related warnings during the Bivouac FTX. On the third warning for a similar incident they shall be assessed as 'incomplete' on the PO and a note shall be made in the feedback section. Warnings shall be issued for significant failure to adhere to the safety principles taught in the EOs. When a warning is given, the instructor shall clearly identify what the cadet has done incorrectly, what steps they need to take to correct the error, and what action they should take in the future to avoid the error.

These ECs are ongoing throughout the Bivouac FTX. The instructor will be required to observe the cadets during the conduct of the practical activities and use the rubric found in this appendix to monitor their performance.

As the ECs are ongoing and deal with progressive skill development, the practice of limiting the number of attempts a cadet has to complete the ECs does not apply. Attempts, however, are limited based on available time during the Bivouac FTX weekend.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete.** If anything on the rubric was not attempted or not completed even with assistance.

- b. **Completed With Difficulty.** If all the tasks on the rubric were completed but less than 60 percent (2 or less out of 4) were completed without difficulty/assistance.
- c. **Completed Without Difficulty.** If all the tasks on the rubric were completed with 60 percent or more (3 or more out of 4) completed without difficulty/assistance.
- d. **Exceeded Standard.** If all the tasks on the rubric were completed without difficulty/assistance. This includes tasks checked as "completed without difficulty" and "exceeded standard".
- 2. Record notes and observations in the assessor's feedback section of the Assessment Checklist.
- Sign and date the Assessment Checklist.
- 4. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
- 5. The overall result will be recorded on the Silver Star Qualification Record located at Annex C.

PROVIDING ASSESSMENT FEEDBACK

As these ECs are ongoing, feedback should be provided to the cadets on a regular basis to inform them of their progress. This is accomplished through direct/immediate feedback during the practical survival activities, group debriefings at the end of the training day and one-on-one interviews as required.

Discuss the performance results of each section of the Assessment Rubric and the overall performance results with the cadet and provide them with a copy of the completed rubric.

326 PC - ASSESSMENT INSTRUCTIONS

PREPARATION

PRE-ASSESSMENT INSTRUCTIONS

Review the assessment plan, assessment instructions and Assessment Checklist and become familiar with the material prior to conducting the assessment.

Obtain all resources required for the assessment.

PRE-ASSESSMENT ASSIGNMENT

Have the cadet review the assessment activity instructions and the Assessment Checklist to become familiar with the material prior to participating in the assessment.

ASSESSMENT METHOD

Performance assessment was chosen to observe the cadet's performing the required skills and make a judgment on the quality of the performance.

CONDUCT OF ASSESSMENT

PURPOSE

The purpose of this assessment is to assess the cadet's ability to perform expedition skills.

RESOURCES

- 326 PC Assessment Checklist,
- Tandem canoe,
- Paddle,
- PFD,
- Canoe safety equipment,
- Mountain bike,
- Helmet,
- Trekking poles,
- Water filter,
- Compass,
- Topographical/trail map of area,
- Journal
- Personal expedition equipment, and
- Group expedition equipment.

ASSESSMENT ACTIVITY LAYOUT

The assessment will be conducted at the expedition centre during the expedition exercise during daylight hours.

All activities will be conducted IAW A-CR-CCP-951/PT-002.

The three modes of travel will be conducted during favourable weather under the following conditions:

- Canoe assessment will be on flatwater.
- Mountain bike assessment will be on familiarization mountain bike trails.
- Hiking assessment will be on Class 3 hiking terrain.

ASSESSMENT ACTIVITY INSTRUCTIONS

The assessment tool for 326 PC consists of a series of checklists which will be used to assess the cadet's performance in the following areas: practicing environmental stewardship, navigating along a route, using expedition equipment, following daily routine and recording entries in a journal. A checklist will also be used to assess the cadet's performance in two of three modes of travel: canoeing, mountain biking and hiking.

After observing each skill being performed, make the judgment and indicate (with a check mark in the applicable box) on the Assessment Checklist whether the skill was:

- **Incomplete**. The skill was not attempted or the skill was not completed even with assistance.
- **Completed With Difficulty.** The skill was completed with some difficulty and/or required assistance from the assessor.
- **Completed Without Difficulty.** The skill was completed without major difficulty and/ or required minimal assistance from the assessor.
- **Exceeded Standard.** The skill was completed with no difficulty and/or no assistance from the assessor.

Make notes of observations for the purpose of providing post-assessment descriptive feedback.

Only certain skills can be observed as exceeded standard.

To ensure a safe environment, cadets shall be afforded only two safety-related warnings during the Silver Star Expedition Training Weekend, on the third warning for a similar incident they shall be assessed as incomplete on the PO and a note shall be made in the feedback section. Warnings shall be issued for significant failure to adhere to the safety principles taught in the EOs. When a warning is given, the instructor shall clearly identify what the cadet has done incorrectly, what steps they need to take to correct the error, and what action they should take in the future to avoid the error.

This PC is ongoing throughout the expedition weekend. The assessor will be required to observe the cadets in their team during the conduct of the practical expedition activity and use the Assessment Checklist found in this appendix to monitor their performance.

As the PC is ongoing and deals with progressive skill development, the practice of limiting the number of attempts a cadet has to complete the PC does not apply. Attempts, however, are limited based on available time during the expedition training weekend.

In the case of inclement weather limiting some aspects of assessment, a RCSU may grant a baseline proficiency based on incomplete observations. However, such circumstances must be recorded in the overall feedback section.

POST ASSESSMENT INSTRUCTIONS

RECORDING ASSESSMENT RESULTS

- 1. Indicate the overall performance assessment on the Assessment Checklist as:
 - a. **Incomplete.** If anything on the checklist was not attempted or not completed even with assistance.
 - b. **Completed With Difficulty.** If all the skills on the checklist were completed but less than 60 percent were completed without major difficulty and/or assistance.
 - c. **Completed Without Difficulty.** If all the skills on the checklist were completed with 60 percent completed without major difficulty and/or assistance.
 - d. **Exceeded Standard.** If all the skills on the checklist were completed without major difficulty/ assistance. This includes skills checked as "completed without difficulty" and "exceeded standard".
- 2. Record notes and observations in the assessor's feedback section of the Assessment Checklist.
- 3. Sign and date the Assessment Checklist.
- 4. Forward completed Assessment Checklist to the cadet's home unit.
- 5. Ensure a copy of the Assessment Checklist is attached to the cadet's training file.
- The overall result will be recorded on the Silver Star Qualification Record located at Annex C.

PROVIDING ASSESSMENT FEEDBACK

As this PC is ongoing, feedback should be provided to the cadets on a regular basis to inform them of their progress. This is accomplished through direct/immediate feedback during the practical expedition activity, group debriefings at the end of the training day and one-on-one interviews as required.

Discuss the performance results of each section of the Assessment Checklist and the overall performance results with the cadet and provide them with a copy of the completed checklist.

CADET INTERVIEW GUIDELINES

PREPARATION FOR A PROGRESS INTERVIEW

PRE-INTERVIEW INSTRUCTIONS

Review the interview guidelines and the Cadet Interview Form located at Appendix 1 and become familiar with the material prior to conducting the interview.

Where discussion is being directed towards specific topic areas, ensure that any required support materials are prepared in advance and distributed to the cadet to review. This could include: training schedules, the Assessment of Learning Plan (Annex B), PC assessment instruments, etc.

Schedule interviews to allow approximately 10-15 minutes per cadet.

PRE-INTERVIEW ASSIGNMENT

Have the cadets review any support materials so they are able to attend the interview prepared to discuss the specific topic areas, as well as their expectations and personal goals.

CONDUCT OF A PROGRESS INTERVIEW

PURPOSE

The purpose of conducting a progress interview is to discuss the cadet's learning progress towards their qualification (assessment for learning) and to provide feedback on overall performance.

RESOURCES

- Note paper,
- Pen/pencil, and
- Cadet Interview Form.

INTERVIEW LAYOUT

Set up the interview location so that both the interviewer and cadet will be comfortable.

INTERVIEW INSTRUCTIONS

Tips for a successful interview:

- Ask questions that will provoke thought; in other words avoid questions with a yes or no answer.
- Manage time by ensuring the cadet stays on topic.
- Listen and respond in a way that indicates you have heard and understood the cadet. This can be done by paraphrasing their ideas.
- Give the cadet time to respond to your questions.
- Have the cadet enter the area of the interview.
- 2. Ask the cadet how they feel they are progressing in the Star Level.

- 3. Give the cadet feedback on their progress and their overall performance highlighting any gaps that may exist between the cadet's self-assessment and the officer's observations.
- 4. Help the cadet make an action plan that takes into consideration the cadet's goals and the requirements of the qualification. Action plans should be realistic and achievable and written using positive language.

The action plan is a negotiated set of steps that the cadet commits to taking to reach their goals. The officer should not dictate steps or goals, but should guide the cadet towards a mutually agreed upon plan of action that meets both the needs of the cadet and the needs of the CP. The action plan must be achievable for the cadet, provide the cadet with guidelines on the action they must take to be successful and be written using positive language.

- 5. Have the cadet sign the Cadet Interview Form, Section 2.
- 6. Sign the Cadet Interview Form, Section 2.

POST-INTERVIEW INSTRUCTIONS

Meet with the cadet throughout the training year to discuss their progress towards achieving the qualification and to revise their action plan.

PREPARATION FOR FINAL INTERVIEW

PRE-INTERVIEW INSTRUCTIONS

Review the interview guidelines and Cadet Interview Form and become familiar with the material prior to conducting the interview.

Review the cadet's completed Qualification Record and related assessment instruments as well as the completed Section 1 and 2 of any Cadet Interview Forms.

Schedule interviews to allow approximately 10 - 15 minutes per cadet.

PRE-INTERVIEW ASSIGNMENT

Have the cadets review the personal goals they established at the beginning of the training year, any action plans, and come to the interview prepared to discuss their success in reaching those goals. Have the cadet think about their personal goals for the summer and following training year.

CONDUCT OF FINAL INTERVIEW

PURPOSE

The purpose of the final interview is to discuss the completed Qualification Record, the cadet's goals that were discussed during the initial interview, and new goals for the summer and following training year.

RESOURCES

- Cadet Interview Form, and
- Pen/pencil.

INTERVIEW LAYOUT

Set up the interview location so that both the cadet and the interviewer will be comfortable.

- 3. Ask the cadet the remaining questions on the form.
- 4. Have the cadet sign the final interview form.
- 5. Sign the final interview form.

POST-INTERVIEW INSTRUCTIONS

CHAPTER 4 PERFORMANCE OBJECTIVES

SECTION 1

PERFORMANCE OBJECTIVES (POs) AND TRAINING PLAN

PURPOSE

1. The purpose of this chapter is to outline the specific POs associated with the Silver Star qualification.

PERFORMANCE OBJECTIVES

- 2. POs are a description of the cadet's ability after training is complete. They include a description, in performance terms, of what the individual must do, the conditions under which the performance must be completed, and the standard to which the performance must conform. These three elements are respectively defined as:
 - a. a performance statement,
 - b. a conditions statement, and
 - c. a standard.
- 3. This chapter also details the training plan that is designed to assist cadets to achieve the required POs using EOs and Lesson Specifications (LS) that are the key reference used for development of A-CR-CCP-703/PF-001.

ENABLING OBJECTIVES

- 4. EOs are a description of the cadet's ability after each unit of learning is complete and constitute a major step towards achieving the PO. EOs may correspond to the major components identified in the first round of deconstructing POs or they may result from grouping several related components. They are composed of three essential parts:
 - a. a performance statement,
 - b. a conditions statement, and
 - c. a standard.

LESSON SPECIFICATIONS

- 5. LSs describe the instructional strategy to be applied to each EO, and include:
 - a. supporting teaching points,
 - b. references,
 - c. learning activities (methods, media and environment),
 - d. estimated timings,
 - e. assessment directions, and
 - f. any remarks that further clarify the design intent.

ASSESSMENT FOR LEARNING

6. Formative evaluation, or assessment for learning, takes place during a phase of instruction and helps cadets and instructors recognize progress or lapses in learning. These assessments can also provide cadets with opportunities to practice PCs. This helps to diagnose cadet needs, eg, corrective action or remedial instruction, plan the next steps in instruction and provide cadets with feedback they can use to improve. It also reinforces learning so that it can be retained longer. Details for Silver Star assessment for learning are outlined within the applicable lesson specifications located at Chapter 4.

6. Substantiation

- a. An interactive lecture was chosen for TPs 1 and 2 to introduce the journal and present background information.
- b. A practical activity was chosen for TP 3 as it is an interactive way to provoke thought and stimulate interest in the journal.

CASE STUDY Cadets are given a written problem, situation or scenario, to which they respond either individually or as a group in order to achieve a performance objective. The problem situation or scenario should match the experience level of the cadets and they should be given enough time either before or during the instructional period to analyze it. Responses to the case should be recorded under four headings: Facts, Assumptions, Problems and Solutions	Learning principles, attitudes and concepts.	Effective application of teaching principles instead of "preaching". Cadets can help each other learn. High energy and perfect demonstrations. Can be easily related to a real life situation in the	Must be well organized and facilitated in order to ensure learning takes place.
DEMONSTRATION AND BEREADMANCE		applications.	
Cadets observe the instructor performing the task in a demonstration, and rehearse it under the supervision of the instructor. A good example of this is drill instruction,			
where cadets are shown a movement and given the opportunity to practice and perform it.			
Demonstration Method	Demonstration Method	Demonstration Method	Demonstration Method
A method of instruction where the instructor, by actually performing an operation or doing a job, shows the cadet what to do, how to do it and through explanations brings out why, where and when it is done.	To teach manipulative hands-on operations or procedures. To teach troubleshooting. To illustrate principles. To teach operation or functioning of equipment. To teach teamwork. To set standards of workmanship. To teach safety procedures.	Minimizes damage and waste. Saves time. Can be presented to large groups.	Requires careful preparation and rehearsal. Requires special classroom arrangements. Requires equipment and aids.
